EXPERIENCE

Financial Analyst

Tech Prospect
07/2014 - Present

- Analyzed and architected financial intelligence models to measure complex data, cash flows, NPV, and ROI.
- Monitored and reviewed options, risks, and costs of company's \$5 million budget.
- Developed successful business models resulting in a revenue increase of 4.4% from 2015 to 2016.
- Worked with multiple data sets to apply qualitative and quantitative customer research techniques and business profitability analysis that resulted in cost savings of 15%.

Fund Manager

Tech Prospect
01/2012 - 06/2014

- Generated, produced and maintained all aspects of the fundraising steps: mailings, tele-fundraising, coordinating with the database administrator, and communication with development teams.
- Managed, lead and coordinated 60 projects and their budget deadlines, achieving an average annual return of 5.8%.
- Solved internal financial business challenges by reducing project costs by 25%, while employing young, but talented, external freelancers without negatively affecting the overall work quality.
